About Me

Undergraduate student with a passion for front-end development, skilled in HTML, CSS, and JavaScript.

Skills

- CSS
- Javascript
- HTML
- C++
- python
- problem solving

Intersets

- poetry writing
- photography
- Reading
- Guitar
- Art
- programming

Languages

- English
- Urdu
- Chinese

Education

Bachelor's in computer science and Information Technology.
NED university of engineering and technology.
11/2021-2025   **CGPA-3.1**

Courses:
- Programming Fundamentals
- Object Oriented Programming
- Data structures and Algorithm

XI-XII (pre engineering) | APWA government college for women.

Projects:

- **Guess the song game**

Developed a web-based guessing game using HTML, CSS, and JavaScript, where users will input the name of a song based on a visual prompt. The game features a hint button. If the user fails to guess the song after three attempts, the game provides an additional hint.

- **Music Playlist**

Created a music playlist application using C++ programming language and data structures. The application consists of two playlists: the first one is a user-generated playlist where users can add and manage songs, and the second one is a pre-existing playlist with a collection of songs and their lyrics.

- **Jewelry Management System**

Developed a jewelry management system using C++ and Object- Oriented Programming concepts. The system allow customers to order various types of jewelry and manages the inventory.

- **Tic Tac Toe**

Developed a web-based Tic Tac Toe game using HTML, CSS and JavaScript. Implemented game logic to check for winning combinations and added a reset button for replayability.
